**Scheduled Water Supply Interruption at Jalan Tun Dr. Lim Chong Eu, Penang Island, on 10/6/2017 (Affected Areas).**

This scheduled water interruption will affect about 25,000 people. Affected consumers are hereby advised to store sufficient water for use during the 10-hour duration of this scheduled water supply interruption.

Kindly note that this is an urgent repair assignment. PBAPP will repair a detected leak on a major pipeline. If left unattended for too long, this leak will cause large amounts of water loss and a potential disruption of water supply services.

As such, the main objective is to prevent a major supply disruption that will affect the southern areas of Penang Island.

After careful consideration of the circumstances, we have scheduled the works on Saturday to be completed within the daylight hours of 8.00am to 6.00pm.

PBAPP regrets all inconveniences caused.

Thank You.
