PENANG, Wednesday (23/8/2017): Perbadanan Bekalan Air Pulau Pinang Sdn Bhd (PBAPP) will service the intake system of a 3.86 million litre (ML) water storage tank in Taman Terubong Jaya, Paya Terubong this weekend.

The 3.86 ML water tank will be temporarily “shut down” to enable the following works to be safely carried out:

- Emptying the tank;
- Replacing 2 units of 300mm sluice valves that are malfunctioning;
- Servicing 1 unit of 300mm altitude valve that prevents overflows; and
- Refilling the tank, testing the system and normalising water supply.

The tank shutdown will cause a 10-hour scheduled water supply interruption, only within the apartment compound areas, affecting an estimated 12,500 residents in the following apartment blocks:

1	Blocks 18 and 20, Taman Terubong Jaya
2	Blocks 9 and 11, Taman Terubong Jaya 1

Please refer to the map in 'Appendix A' that indicates all affected areas.

This water supply interruption in Taman Terubong Jaya has been scheduled from 9.00pm on Saturday night (26/8/2017) to 7.00am on Sunday morning (27/8/2017) to minimise inconveniences for all affected residents.

Kindly note that these water works are necessary to prevent potential mishaps and issues, including unscheduled water supply interruptions, in Taman Terubong Jaya.

PBAPP deeply regrets any inconvenience caused. We would like to advise all affected consumers to kindly store sufficient water for use on Saturday night until the early hours of Sunday morning.

Thank You.
