Reason	Valve Replacement Works at Sungai Dua Water Treatment Plant
No. of water accounts affected	197,851

PULAU PINANG, Rabu, 23.11.2022: Perbadanan Bekalan Air Pulau Pinang Sdn. Bhd. (PBAPP) will shut part of the Sungai Dua Water Treatment Plant (WTP) to facilitate valve replacement works of the faulty 1350mm and 1200mm diameter valves at the plant.

Besides replacing the valve, PBAPP will also carry out the following works at the same period to avoid another water supply interruption in the same areas if they are carried out separately.

- i. Repair work of 1200mm diameter pipe in Permatang Ara
- ii. Maintenance work by Tenaga Nasional Berhad (TNB) at Bukit Minyak Pump House.

A total of 197,851 water accounts from three districts namely Seberang Perai Utara, Seberang Perai Tengah and Seberang Perai Selatan will be affected by this scheduled water supply interruption.

Of that number, 24,615 water accounts will experience low water pressure, while 173,236 accounts will have their water supply cut off.
