**AIR ITAM FLYOVER CONSTRUCTION PROJECT:
 12-HOUR SCHEDULED WATER SUPPLY INTERRUPTION AT LEBUHRAYA
 THEAN TEIK AND NEARBY AREAS**

| | |
|-------------------------------------|---|
| Scheduled Water Supply Interruption | 9.00am – 9.00pm, Thursday, 21.12.2023 |
| No. of affected water consumers | About 9,000 water consumers |
| Main reason | Connection of diverted water supply pipelines to accommodate the “Lebuhraya Tun Dr. Lim Chong Eu to Air Itam Flyover” project. |

PENANG, Friday, 15 December 2023: Diverted water supply pipeline connection works will be carried out on Thursday, 21.12.2023 at 5 points in 2 locations near the:

- Lebuhraya Thean Teik/Lintang Angsana intersection; and
- Lebuhraya Thean Teik/Farlim Market intersection.

These connection works are related to the construction of the “Lebuhraya Tun Dr. Lim Chong Eu to Air Itam Flyover” project, undertaken by the Penang State Government under BPEN (Bahagian Pembangunan Ekonomi Negeri).

In order to facilitate the pipe connection works, Perbadanan Bekalan Air Pulau Pinang Sdn Bhd (PBAPP) must temporarily shut down a 600mm MS (mild steel) pipeline in the area.

This 600mm pipeline shutdown will cause a 12-hour scheduled water supply interruption along Lebuhraya Thean Teik and nearby areas in Air Itam on 21.12.2023.

** Please refer to “Appendix A” for the full list of affected areas.*

About 9,000 water consumers will be affected by this scheduled water supply interruption, from 9.00am – 9.00pm on 21.12.2023.

PBA

Perbadanan Bekalan Air
Pulau Pinang Sdn Bhd
199901001061 (475961-X)

Memenuhi segala keperluan bekalan air anda

Meeting all your water supply needs

PBAPP apologises for the inconveniences that will be caused by this scheduled water supply interruption.

Please note that this scheduled water supply interruption is related to a Penang State Government project. Pipelines that have been diverted to accommodate a new flyover project must be connected in order to ensure good water supply services during, and after, the flyover construction process.

This is a 12-hour scheduled water supply interruption. All domestic premises should be equipped with internal water tanks to store sufficient water supply for 24 hours' use.

All affected consumers are encouraged to store sufficient water for use from 9.00am to 9.00pm on 21.12.2023.

Thank You.
