

10 January 2024

Media Release

**IR. PATHMANATHAN K.**  
CEO, PBAHB and PBAPP.

**JANUARY 2024 SCHEDULED WATER SUPPLY INTERRUPTION UPDATE  
4.00PM, 10.1.2024: PBAPP “FIGHTING” TO STAY ON SCHEDULE**

- Sungai Dua Water Treatment Plant: One of the two leaking 1.2m control valves has been safely and properly replaced. Work progress on the second valve has reached 80% completion status.
- Projects at 22 other locations: All other planned water works projects are either ahead of schedule or on schedule.
- Sungai Perai: The team of 16 divers have started work to plug a 1.35m hole on the underwater pipeline. This time round, we will install two heavy-duty clamps to cover the damaged area.

The Sungai Perai underwater pipeline repair work is an emergency response initiative. We have responded as quickly as possible. However, please note that progress of work will primarily be determined by river conditions.

- **PBAPP is still targeting completion of all water works by 6.00am tomorrow morning (11.1.2024), including the Sungai Perai emergency response work.**
- If all goes well, PBAPP will initiate Stage 1 water supply recovery works as scheduled, from 6.01am tomorrow.

Thank You.
